desain-dimas.portfolio

UI/UX and Digital Product Designer with 3 years of experience designing digital products and systems across Healthcare, Warehouse Management, CRM, Pharmacy, and Government sectors. Experienced in working with early-stage and growing startups to design, improve, and launch digital products. Skilled in translating business requirements and user needs into intuitive user flows, interfaces, and functional digital experiences. Strong attention to detail, with a basic understanding of web development and database structures that supports effective collaboration with development teams.
